Room Types

In complete harmony with the surrounding landscape, the 64 rooms of the hotel have been carefully planned and decorated to provide the ideal hideaway. Three different groups of architects who share a common respect for nature have melded elements of Greek tradition with contemporary design to create a modern environment. Relaxation and comfort are top priority, as the furnishings and ecological Coco-Mat mattresses guarantee you endless hours of restful idleness.

Surrender yourself to the caress of the down-filled pillows, and experience the absolute sense of restfulness on the anatomic mattresses where you will forget that alarm clocks ever existed. The balconies and verandas offer an unimpeded view of the sea, the mountain or the garden, while a walk on the sand or a swim in the crystal blue waters of the pool or sea is only a stone's throw away.

Koutali a la Carte Restaurant **Kanata Beach Bar**

The sense of taste holds a particularly prominent place at Ekies. The chef creates dishes with charm and imagination. To make temptation even harder to resist, we invite you to sample our dishes anywhere in the hotel environs. Yes, even in the sea.

No place meant for relaxation could be complete without the liberating properties of massage on its list of offerings. You can sample a variety of alternative therapies for the face and body using only natural products that will transport you to another dimension, that of total calm and rejuvenation. All this takes place on an unimaginably soft Coco-Mat mattress made of natural materials designed to keep allergies at a distance. You will surrender and you know it.

Outdoor

If you have ever wanted to set sail and chart your own course, here is your opportunity. Enjoy a unique holiday experience with a boating excursion without having to do any of the planning. Your destination is the small uninhabited islands in the area which are ready to provide isolation or private adventure with the infinite blue sea as a backdrop. Have a picnic with savoury treats we prepare for you and let the lethargic sound of the waves enchant you. Finding yourself in the middle of a magical "nowhere," the bothersome noises of the city seem to fade and almost disappear.

A walk in nature may be the easiest way to get in the mood for a holiday. The whispering leaves, the sound of running water, the salt of the sea in the air and the sand in which you can lose yourself are all excellent relaxants, and you will find plenty of them at Ekies. Just kick off your shoes and you are ready.

In life you have five senses,
in your dreams you have a hundred...
freedom knows no boundaries...
