Built on the highest spot of the town, Konitsa Mountain hotel opened its doors for the public on December 2006 and welcomed its first guests.

Following the traditional architecture of the area, the hotel offers distinguished luxury even for the most demanding taste. The reception area and the bar were carefully designed, while the bedrooms were each uniquely decorated and equipped in order to offer endless hours of relaxation, peacefulness and comfort. The area is easily accessible. Just 50 minutes away from Ioannina and 3 and a half hours from Thessalonikh, Konitsa offers unique experiences all year round. Picturesque and traditional it spreads between the foothills of the mountains Prophetes Helias (1071m) and Gymnadi, looking as if it is being rocked to sleep by the sound of the waters of the river Awos.

Konitsa is the centre of the surrounding area, ideal for travelling through its famous stone villages Mastorohoria, the enchanting Zagorohoria and the fully equipped skiing resort of Vasilitsa.

Make sure you don't leave Konitsa without experiencing with the help of professional guides the thrill of descending one of its famous rivers (Awos or Voidomatis), either going rafting or kayaking, trekking or without trying a mountain sport.

Imagine yourself in a place where your pleasure is our sole concern!
